

## **Abbotsford Building Bylaw 1274-2003**

- Section 18 allows the city to "rely on professionals" during construction without explaining its role in this situation – it is presumably not the role explained in BCBC.
- Section 15.1 allows the building official to require letters of assurance whenever he/she wants, rather than in accordance with BCBC.
- Section 15.4 requires a landscape architect and L1, L2, L3. The landscape is the responsibility of the architect under BCBC. This section also requires the landscape architect to certify compliance with “the plans and/or the zoning bylaw”.
- Section 9.3(e) has separate requirements for letters of assurance.
