

## **West Vancouver Building Bylaw 4400, 2004**

- Schedule C is a letter for the owner to submit. It declares that the owner understands the inspection arrangements and will direct the consultants. It appears these arrangements are unclear. For example, does the City of West Vancouver attend occupancy demonstrations of life safety equipment, as foreseen by the British Columbia Building Code?
- Schedule D is a letter for consultants to declare their insurance, but no requirements are mentioned in the bylaw.
